Footnotes: [1] Weight: includes battery and optional travel bezel instead of standard optical drive in Ultrabay drive, if applicable. Weight may vary due to vendor components, manufacturing process and options. [2] Lease prices are billed on a quarterly/monthly basis. Lease rates shown are for a less than £ 32,500 FMV lease with a term of 36 months and are for planning purposes only. A FMV lease is a lease which affords the lessee the benefits of possession and use of equipment for a specific period of time and for a fixed number of payments, usually at a fixed amount. At the end of the lease term, the lessee usually has the option to return the equipment or purchase it at the FMV of the equipment at that time. The FMV is determined by the lessor. [3] Maximum battery life requires optional 9-Cell battery and bay battery.

## SOLUTIONS TO REDUCE YOUR TOTAL COST OF PC OWNERSHIP.

### LENOVO TOP SERVICES & PC LEASING

ThinkPad Protection complements warranty services with Accidental Damage Protection for ThinkPad notebooks. This service covers all repairs and replacements for notebooks damaged by accidents including electrical surges, drops or falls, liquid spills and LCD damage that may occur during normal use.

#### DO YOU NEED THINKPAD PROTECTION?

To see if your organization needs Accidental Damage Protection Service, just answer the following questions:

- Is minimising downtime important to you?
- Is convenient coverage for accidental damage important?
- Are you in a mission critical or deadline driven environment?
- Is worry-free repair or replacement of value?
- Do your employees work while away from office?
- Is a lower total cost of ownership a priority?

If the answer is 'yes' to any of the above questions, your organisation could benefit from ThinkPad Protection Services.

#### PC LEASING

##### ▶ A BETTER WAY TO ACQUIRE & MANAGE LENOVO PCS

Use your budget to fund a lease rather than making an outright purchase. With IBM Global Financing, you can lease it now rather than wait for funds. And with a lease you can boost your IT spending power by up to 20%, according to IDC. Solve problems of obsolescence with IBM's Global Asset Recovery Service. This offers environment-friendly disposal of old PCs. Disks are scrubbed to eliminate security risks; and if the old kit has commercial value, it can release cash for new purchases.

##### ▶ MORE VALUE, LESS RISK

An IBM Global Financing lease lowers the total cost of PC ownership. It can be flexible too, and allow upgrades during the life of the lease. Asset recovery solutions turn end-of-life equipment into cash.

##### ▶ SIMPLE & QUICK

You can get a lease quote for your PC acquisition simply and quickly, within hours. Just talk to your Lenovo sales representative.

A comprehensive portfolio of offerings has made IBM Global Financing one of the world's premier single-source providers of multi-vendor IT financing solutions. For more information, visit [www.ibm.com/financing/uk](http://www.ibm.com/financing/uk)

## WAYS TO ENHANCE YOUR COMPUTING EXPERIENCE.

Get the most out of your computers with Lenovo's range of accessories.
