□ NEW WORLD. NEW THINKING.™

THINKPAD X61 TABLET:

THE WORLD'S BEST ENGINEERING IN ACTION.

Is it an amazingly capable notebook or an ultra-light tablet? Actually, it's both. Capable of going up to seven hours unplugged, the ThinkPad® X61 Tablet is an incredibly versatile convertible. With ThinkVantage® Client Security Solution, an integrated bi-directional fingerprint reader and the ability to disable ports at the BIOS level, it's also the most secure X Series Tablet ever. Equally reassuring is an industry-leading warranty and worldwide, round-the-clock service and support. ThinkPad X61 Tablet is a product of Lenovo, a global company incorporating the former IBM PC division. From the world's best engineers come the world's best-engineered PCs.

Intel® Core™2 Duo Processors (Low Voltage) help boost productivity with outstanding mobile performance and longer battery life.

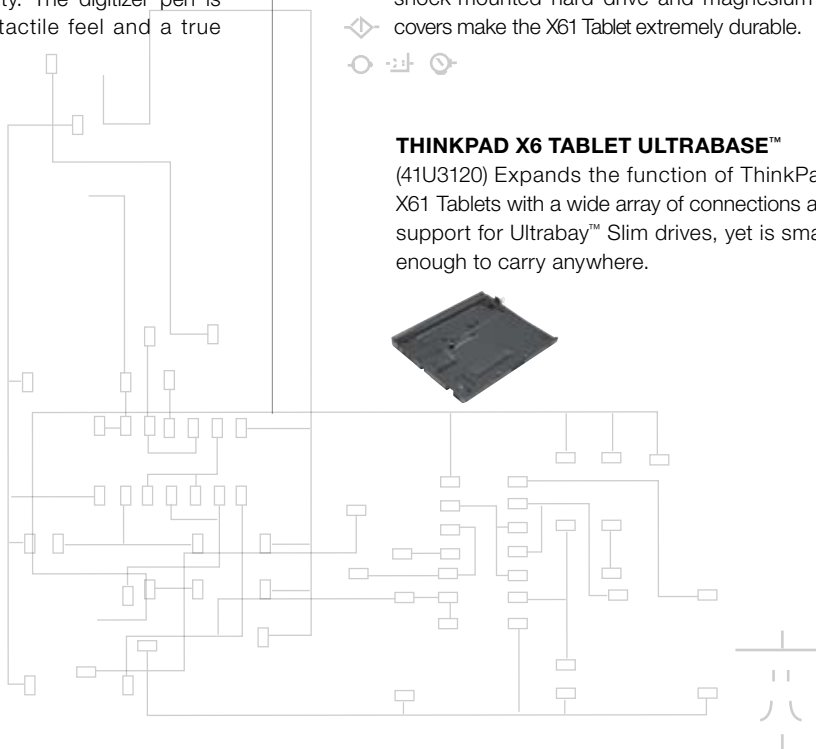

The high-resolution display of the new SuperView screen is viewable even in direct sunlight. Also viewable outdoors, the MultiView/MultiTouch display adds touch-screen capability. The digitizer pen is engineered for excellent tactile feel and a true eraser function.

The quad-alloy hinge has been tested thousands of times to ensure smooth, reliable, transitions from notebook to the tablet mode. Plus, a shock-mounted hard drive and magnesium-alloy covers make the X61 Tablet extremely durable.

THINKPAD X6 TABLET ULTRABASE™ (41U3120) Expands the function of ThinkPad X61 Tablets with a wide array of connections and support for Ultrabay™ Slim drives, yet is small enough to carry anywhere.

Lenovo™ recommends Windows Vista® Business.
